We are extremely proud to announce UMT has passed international certification for ISO standards: MS ISO 9001:2015; Quality Management System (QMS) and MS ISO 27001:2013; Information Security Management System (ISMS).

Being certified with the international standard means, we can guarantee that all our processes, documentations and improvements of our service meet the given requirements. By this, our stakeholders and customers can expect a high level quality standard and reliable services.

We have also established and maintained an effective information management system which meets high standards of risk management and security control on an on-going basis. The ISMS also assures that all our relevant service systems and networks are protected against any systemic vulnerabilities.

It is a great achievement that shows UMT is truly invested in understanding clients’ and stakeholders’ demands of high quality services.
Madam Pamela Ernstberger recently visited the Faculty of Fisheries and Food Science (FPSM), Universiti Malaysia Terengganu (UMT) as part of EURASTiP Exchange Programme. The aim of this exchange programme is to share and discuss common ideas for developing educational opportunities for students and staff between Europe and South East Asia. Under this opportunity for educator’s capacity building, Dr. Noordiyana Mat Noordin was the main host. Madam Pamela is the Programme Manager of Exploring Diversity in Aquaculture or EDinAqua (www.edinaqua.org) and has been an active liaison between aquaculture vocational training institutes and industry in Europe. During her three weeks at UMT, Madam Pamela has shared her experience in TVET aquaculture education and training with students, lecturers of UMT as well as SMAV teachers in Terengganu areas.

Upon her meeting with UMT Deputy Vice Chancellor (Academic and International) Prof. Ir. Dr. Noor Azuan Abu Osman, a strategy has been discussed to kick start a symbiotic relationship between UMT and TVET aquaculture institutes and the industry from Europe. Both parties have agreed that TVET education should be the core focus in developing and delivering aquaculture courses that are in direct response to the needs of the growing industry. UMT is open to the ideas to send aquaculture students for further educational and training opportunities in Europe that will provide students with better insights into this global industry, as well as helping them to develop their interpersonal and social skills. Establishing a strong Community of Practice through European and national industry support, the effort will be placed in developing an aquaculture pilot programme that is aimed to better prepare UMT aquaculture students to be more globally competitive.

In addition, during her stay, Madam Pamela has also been introduced to ornamental fish industry in Malaysia that allowed her to learn about cross breeding techniques to produce different strain of Betta fish. She had amazing new experience with our own Malaysian Golden Arowana as well as the rare opportunity of processing caviar from tropical sturgeon in Perak.

We would like to thank EURASTiP for funding the exchange programme, UMT and FPSM as well as support received from the industry, Bukit Merah Arowana, Betta Lover Farm and Bao Lai International.

Buddies Jamboree is one of the initiatives taken and agreed by members of Malaysian public universities (UA) to organise a leadership programme for students buddies (student volunteer) who have been aiding International Offices of Malaysian UA to plan and conduct events as well as programmes that contribute to Internationalisation at Home agenda. This programme which involves 20 public universities, has received good support from Education Malaysia (BEM) and the Ministry of Education Malaysia. The Committee Members of International Directors (JKPA) has collectively agreed to make this programme as an annual event for student buddies nationwide. The 2018 edition of the Buddies Jamboree was hosted by Universiti Sains Malaysia (USM). This year, University of Malaya (UM) will host for the Buddies Jamboree 2019 with the theme OASIS – Shaping Future Global Leaders. UMT will be participating in the jamboree and has selected 5 buddies to represent the university.

WORDS OF WISDOM

“Every person must employ his or her intellect in facing challenges. Avoid the laziness to think. It is the ability to think that separates a strong person from a weak one. UMT must intensify efforts to foster the culture of thinking and explore knowledge for the wellbeing of the community.”

DATUK A. KADIR JASIN
Special Adviser on Media and Communication to the Prime Minister
UMT 23 September 2019 – Sepagi dengan Datuk A. Kadir Jasin
UMT-Singapore ETH Centre (SEC) Technical Visit

Collection of Insights

- Enhancing university through extensive governance
- Aligning strategic planning of industrialised future research to global interest
- Coordinating multiple world-class institutions under one roof
