PROGRAMME

GS08 BACHELOR OF SCIENCE (COMPUTATIONAL MATHEMATICS)

INTRODUCTION

This programme focuses on basic mathematical and statistical theory extended with the theoretical and practical numerical analysis, optimization, operations research and actuarial science, accounting and reinforced with mastery in the field of information technology, aims to produce experts in Computational Mathematics required by the various sectors in the country. In this programme, mathematical modeling and numerical analysis software skills blended with mathematics and statistics, particularly in the field of optimization and operations research.
