Student Research Day @UMT or formerly known as UMT Undergraduate Research Day is an annual academic event organised by Universiti Malaysia Terengganu since 2018. The event serves as a platform for final year undergraduate students to present the findings of their final year projects and to showcase the impact of their scientific projects towards life enhancement, enrichment of knowledge and innovation in research products to industries and community.

Every year, more than 2000 students from various fields of studies including Fisheries and Food Sciences, Science and Marine Environment, Ocean Engineering Technology and Informatics, Maritime Studies, Business and Economics and Social Development participate in the online video presentation.

Student Research Day @UMT 2020 will be hosted virtually by Faculty of Ocean Engineering Technology & Informatics, Universiti Malaysia Terengganu with the theme “Bridging the Gap UMT-Industry”.

GENERAL GUIDELINES FOR PREPARATION OF VIDEO

- **Duration:** ~5 minutes
- **Style:** Student’s creativity
- **Video format:** mp4, flv, AVI, MOV, wmv
- **Video editing tools:** Any suitable software/tools

GENERAL GUIDELINES FOR SUBMISSION OF 5-MINUTES VIDEO

**STEP 1:**
Student creates a creative 5-minutes video presentation using any suitable tools/software.

**STEP 2:**
Student should include the following info in the presentation:
- Title/Author/Affiliation
- Problem/Motivation
- Proposed approach/alternative/key findings
- Summary/Conclusion.

**STEP 3:**
Student submits the final edited video to FYP Coordinators for respective programme.

**BRIDGING THE GAP UMT-INDUSTRIES**

---

**Main Awards for SRD UMT 2020**

**Best Research Project**

- **1 x Grand Prize**
  - Trophy, RM500 Cash Prize & Certificate

- **1 x Second Prize**
  - Trophy, RM300 Cash Prize & Certificate

- **1 x Third Prize**
  - Trophy, RM200 Cash Prize & Certificate

- **2 x Consolation Prize**
  - Trophy, RM50 Cash Prize & Certificate

---

**Best Research Project Awards for each Faculty**

- **1 x Winners from each Faculty**
  - Hard disk & Certificate

---

**Best Research Project Awards for each Programme**

- **5 x Winners from each Programme**
  - Pendrive & Certificate

---

*Digital certificate of participation will be provided to all students*

**THE PRECIOUS OF LIVING COLOURS**

The living colours displaying glamorous combination of vary colour with elegant dance had stunning a lot of aquarium hobbyists – the ornamental fishes. AKUATROP has been actively involves in researching new knowledge, new techniques, and product-related with ornamental fish keeping. As leading in marine ornamental fish research, AKUATROP is currently establishing breeding technology not only clownfishes but also ornamental cleaner shrimps. Through mutual collaboration, clownfish production technology is now ready to be transferred to Greeny Aquaculture Sdn. Bhd. 

Currently, AKUATROP has been successfully established breeding and growth out technology for false clownfish Amphiprion ocellaris, tomato clownfish Amphiprion frenatus, and maroon clownfish Premnas biaculeatus. Which they are among the top demand in the marine ornamental markets.

Besides, AKUATROP also starting investigating marine ornamental shrimp such as Scarlet Skunk Cleaner Shrimp Lysmata amboinensis and fire shrimp Lysmata debelius are both new targeted species to establish breeding technology in captive.

Off all idea of establishing captive breeding, technology is aims to reduce depending on wild-caught population via brood stock development with nutrition enhancement and understanding the fundamental requirement of each species. Finally, transfer this technology to industry and establish mutual collaboration.

KUALA LUMPUR: Tertiary students will be allowed to return to campus in phases starting this month.

Higher Education minister Datuk Dr Noraini Ahmad in making the announcement said four categories of students can resume in-person classes beginning this month while all other remaining students will return in October.

In a special televised address, Noraini said the four categories include 30 per cent of local students in private higher education institutions; first to fourth-year public university students who need clinical or practical training, workshop, laboratory, studio or special equipment and those who need to sit for professional board examinations.

The other two categories also include first to fourth-year university students who do not have access to internet or a conducive learning environment; and international students from both public and private institutions, including new students.

“Private and public institutions are given flexibility to determine suitable learning modes, including online teaching and learning activities for students, based on their programmes.

“To ensure that this will run smoothly, higher education institutions are urged to make necessary preparations starting now,” she said, explaining that the Cabinet had agreed for all students to eventually return to campuses by October.

Noraini reminded students who would be returning to campus to continue practicing social distancing and personal hygiene.

Student activities would be allowed, she said, with no more than 250 people depending on the size of the area and after taking into account social distancing measures.

She said all sporting and recreational activities must adhere to the standard operating procedures issued by the Youth and Sports Ministry and the National Security Council.

On the intake of international students, Noraini said these students must register with Education Malaysia Global Services before being allowed to enter the country.

“They must undergo Reverse Transcriptase-Polymerase Chain Reaction (RT-PCR) or the Antigen Rapid Test Kit three days before entering Malaysia.

“They must also be screened by the Health Ministry and undergo 14-day quarantine at locations set by their respective learning institutions.”

MASTER OF BUSINESS ADMINISTRATION
MBA UMT OFF-CAMPUS CYBERJAYA

PROGRAM OVERVIEW

✔ Our MBA Program is designed to train executives to think strategically and analytically through intensive series of stimulating lectures, energetic seminars, and conducive small team projects.

✔ The MBA adds value to your first degree by developing an integrated and deep understanding of management and leadership at organisational levels and in a global market.

✔ Enhance your knowledge and skills in any of the four concentrations of your choice namely Strategic Management, Marketing, Islamic Finance and Maritime Logistics.
WHY STUDY WITH US?

- Offers a wide range of competitive programs which are carefully designed and frequently revised to ensure their relevance to the real business world and the changing global economy.
- Integrated approach that combines core courses, elective courses, and a project paper. Four elective course concentrations are offered to meet your career goals: Strategic Management, Marketing, Islamic Finance, Maritime Logistics and Transport,
- Flexible and blended mode of delivery
- Competitive Tuition Fee
- Accredited by MQA

CORE COURSES
- Accounting for Managers
- Managerial Economics
- Organizational Management
- Electronic Commerce Technology
- Human Resource Management
- Financial Management
- Coastal Community Development
- Business Research Methods
- Business Ethics in Corporate Governance
- Operations Management
- Strategic Management
- Marketing Management
- Project Paper

MARKETING:
- Consumer Behavior
- International Marketing
- Sales Management
- Services Marketing
- Tourism Marketing
- Destination Marketing

ISLAMIC FINANCE:
- Governance and Applications of Syariah in Islamic Finance
- Islamic Financial Institutions and Markets
- Islamic Economics: Theory and Practice
- Financial Operations and Deposits of Islamic Banking
- Syariah Applications in Financial Transactions
- Estate Planning and Management in Islam

MARITIME LOGISTIC AND TRANSPORT:
- Modern Port Management
- Marine Insurance
- The Law of Carriage of Goods by Sea
- Logistics and Supply Chain Management
- Maritime Logistics
- Custom and Forwarding Agent

ELECTIVE COURSE CONCENTRATIONS

STRAIGHT MANAGEMENT:
- Change Management
- Strategic Entrepreneurship
- Organizational Behavior
- Innovation Management in Organization
- Strategic Leadership and Decision Making
- International Business

HOW TO APPLY

- Application can be made online via http://gsea.umt.edu.my throughout the year.
- Application will only be processed on receipt of full supporting documentation required.
- All application received will be processed and successful applicants will be notified without delay
- Recommendation by two (2) academic referees (sealed) for students with degree other than conferred by UMT.
- Please include any other relevant documents e.g Curriculum vitae, supporting letter(s) and professional certificates (if any).
- Intake: September
- MBA program is offered at UMT Off-Campus Cyberjaya
